

THE ORACLE INSTITUTE

An Advocate for Peace and a Vanguard for Conscious Evolution

Oracle Spirituality School is part of The Oracle Institute, a 501(c)(3) educational charity. The school offers a rich curriculum of interfaith and peacebuilding classes, including overnight campus retreats. Our mission is to assist the spiritual development of our students by providing experiences that challenge the mind, cultivate the heart, and promote soul growth up the **Spectrum of Consciousness**.

Oracle also seeks to lessen the spiritual polarization between **Fundamentalists** (roughly 25% of the American population) and **Pluralists** (also about 25% of the population and the fastest growing group). The result is an ever-increasing “**God Gap**” that is further fueled by our polarized political parties. Oracle has chosen to work inside this “void” by holding classes that promote curiosity and common ground, and we utilize proven methods of spiritual ascension, like the **Spectrum of Consciousness**.

Oracle believes humanity is undergoing a major paradigm shift, the likes of which the world has not seen since Jesus walked the planet. Yet, we are concerned that biblically-based explanations for our current woes may easily lead to WWII. To reduce End Times mania and New Age magical thinking, we encourage students to analyze the past **Spiritual Paradigms** so that we may properly evaluate our current evolutionary trajectory and plan for a 21st Century based on **Truth, Love, and Light**.

First Spiritual Paradigm:	All is One	<i>circa 14 billion BCE (pre-Big Bang)</i>
Second Spiritual Paradigm:	Era of the Great Mother	<i>circa 25,000 BCE – 5000 BCE</i>
Third Spiritual Paradigm:	Era of Gods and Goddesses	<i>circa 5000 BCE – 50 CE</i>
Fourth Spiritual Paradigm:	Era of God the Father	<i>circa 50 CE – 2012 CE</i>
Fifth Spiritual Paradigm:	Epoch of Enlightenment	<i>very soon, hopefully!</i>

Oracle asserts that a civilization’s concept of the Godhead necessarily impacts its culture. We call this the “**Trickle-Down Deity Theory**.” For example, when we entered the Fourth Spiritual Paradigm and the Godhead went male, patriarchy caused a myriad of front-line symptoms: ethnocentric bigotry; misapplication of technology; environmental abuse; religious warfare; and female subjugation. Thus, one of our goals is to resurrect the Sacred Feminine so that we may rebalance the Godhead and awaken humanity to the systemic misogyny that precludes us from progressing into a more enlightened era.

Currently, Oracle is building the “**Peace Pentagon**” – a home for our spirituality school and headquarters for our award-winning press and peacebuilding practice. Our school also offers holistic mediation models, inclusiveness training, and classes that support Earth Federation.

Our pentacle icon represents the Fifth Spiritual Paradigm and is a call for unity among the five major religions: Hinduism, Judaism, Buddhism, Christianity, and Islam). Our multi-faith church, **Oracle Temple**, offers spiritual salons and other gatherings in the Peace Pentagon sanctuary.

A full list of Oracle Spirituality School classes is available on our website. Past classes have included primers on the esoteric paths of the five primary religions, various forms of yoga, social activism, environmental sustainability, and visits from The Federation of Damanhur in Italy. We hope you will join us for a class or retreat in the near future and help us birth the next paradigm!
