

THE ORACLE INSTITUTE

An Advocate for Peace and a Vanguard for Conscious Evolution

A New World based on compassion and cooperation is just over the horizon. Already, it exists in our hearts and minds, and many of us are working diligently to build it! Yet, a major piece of the puzzle is missing – *the collaboration and coordination needed to truly manifest the New World.*

Enter the **Peace Pentagon HUB**, a networking site that identifies and links organizations and individuals in Virginia who are implementing evolutionary ideas and groundbreaking initiatives. The HUB is the brainchild of interfaith minister Laura George, a former attorney and founder of **The Oracle Institute**, an educational charity dedicated to building the New World.

Located along the New River in Independence, Virginia, the Peace Pentagon HUB – and the Peace Pentagon – have been under construction for years. The Peace Pentagon is a PassivHaus® eco-spirituality center which will serve as the headquarters for the HUB and Oracle's other operations: an award-winning publishing house, spirituality school, and peace practice. Rev. George readily admits, "The Virginia HUB is an extremely ambitious project. We'll need state-wide support to pull this off!"

The "HUB" concept is not new. In fact, HUBs are popping up all over the world: centralized websites that focus on a core theme, foster collaboration among HUB members, and promise exponential results. Yet, the Peace Pentagon HUB is unique because it is based on the "**Wheel of Co-Creation**" and because futurist **Barbara Marx Hubbard** is involved with the Virginia HUB and a California HUB under development.

The Wheel of Co-Creation contains 11 major Sectors of Society and is based on **Systems Theory** – the reality that all life forms, all structures are interconnected and interdependent. The HUB will scan, map, and connect people and projects that are actively "building the New World."

Rev. George and Ms. Hubbard met at the Building the New World Conference, hosted by Radford University last summer. Ms. Hubbard visited the Oracle Campus and toured the Peace Pentagon, declaring, "This is a Peace Room as sophisticated as a War Room. A War Room maps enemies and how to defeat them. A Peace Room maps innovations, creativity, and newness, then connects it and communicates it."

"The Oracle Institute is building a HUB at the very center of the Wheel of Co-Creation, whose purpose is to build a New World based on what's working. It will become a model that can be replicated anywhere in the world."

PEACE PENTAGON HUB

A Strategic Center for Building the New World

To celebrate the grand opening of the Peace Pentagon HUB, Oracle held an Open House over the 4th of July weekend and officially launched the Virginia HUB on Independence Day. Currently, the HUB is live and Virginia residents and organizations are encouraged to register as Members.

“The Peace Pentagon is going to serve as a vibrant HUB to shine a light on these different emerging initiatives that are creating the New World.”

*~ Philip Hellmich
The Shift Network*

The Peace Pentagon HUB also is endorsed by **The Shift Network**. Philip Hellmich, Director of Peace at Shift, is on the Oracle Advisory Board and he too has visited the Oracle Campus. He states, “This is such an inspired, deeply inspired vision. And being here at the Peace Pentagon, I am personally moved by the presence of the land, the architecture, the people. I am just thrilled about what is emerging here at the Peace Pentagon.”

Due to the breadth of the HUB vision, Oracle is putting out a **‘Call to Volunteers.’** The Virginia HUB will require staff to monitor what’s emerging in each Sector and to discern which projects merit special attention and reporting at the HUB.

Registering at the HUB is easy: New Members self-select their favorite Sector of the Wheel, list their current projects, and post their website link which is seen by other Members.

- **During the first stage of development**, the HUB will function as a directory of Virginia organizations and individuals who are building the New World and it will highlight important initiatives in each Sector.
- **During the second stage of development**, powerful software will enable the Virginia HUB to operate as a multi-media platform for collaboration and coordination among all HUB Members.
- **When completed**, the Peace Pentagon HUB will be networked with HUBs around the world!

Explains Rev. George, “The HUB is more than an ‘Angie’s List’ for Lightworkers – it’s a tool for cross-pollinating crucial ideas in each Sector. Most of us have been working in ‘silos’ and achieving linear results. The HUB will facilitate economies of scale and efficiencies that will enable us to attain dynamic, exponential results.”

Already, numerous non-profits have joined and over a dozen Virginians have volunteered. Please contact **Katie@TheOracleInstitute** if you are inspired to help build the New World!
